Necessary to show 11. Delegates will be elected in the several counties in the District by Mass Convention at 10 o'clock p. m. on Saturday, July 10th, 1898. By order of District Committee at a meeting held at Mayville June 18th, 1898.

UNCLE SAM has in his Treasury \$100,578,116 in bright yellow gold, which no one seems to want. The Spanish Treasury has not been heard from.

Word comes by cable that the Cubans are living on coconuts. They are much jolier than the "cheb-nuts" on which the cable has been feeding Americans for some weeks.

It is announced at Madrid from Cuba that yellow fever has already attacked members of the American expedition at Santiago. This is probably a Spanish lie; but all accounts go to show that the Dons are suffering an epidemic of buck ague.

A QUESTION.
Did the office tendered to Mr. TOM DAVIS of the MAYSVILLE LEDGER come through the influence of the Hon. SAMUEL J. FAYET? If so, and it is accepted by Mr. DAVIS, what bearing will it have on the candidacy of the Hon. Mr. COX for Congress?—*Ashtand News*.

Well, Brother MILLER, you may rest assured that the Hon. Mr. PRON was not consulted in the matter.

Just what "hooseness" the acceptance of the place will have on the candidacy of the Hon. WILLIAM H. COX is one of those dark, unfathomable things—as mysterious as the movements of Spaul's phantom fleet.

Hit him again!

A few days since Mr. JOHN R. PROCTOR of the Civil Service Commission called on Assistant Secretary of War MIKELJORN and protested against the appointments being made in the War Department as contrary to the Civil Service Law. Mr. MIKELJORN expressed himself rather forcibly, saying that there were war times, that good men were needed, that an emergency existed and that he did not have time to "fool with the d-n Civil Service nonsense." If there were a few more MIKELJORNS in authority matters would go along more smoothly. May his tribe increase.

THE BEEHIVE GUIDE.
The Largest Shipment of
BUY A DEERING MOWER
Chair Ever Came to Northeastern Kentucky

was received Monday, Tuesday and Wednesday, May 9th, 10th and 11th, 1898, by JOHN I. WINTER, THE PRICE FIGHTER. There was 30,000 (thirty million) feet in the shipment, and every foot of it is the justly famous Deering Pure Sial Twine. Every one wants, and will have no other twine after once using Deering Pure Sial. None of us are too old to learn. If your neighbors are using a better article than you are, surely you wish to know it. The demand for Deering Pure Sial Twine has become so great that we were compelled to this year buy 30,000 feet to accommodate the wants of our customers. Now, listen. Every inch of this Twine is tested at a much higher tension than any binder requires in tying; while in other makes of twine only 100 feet out of every 30,000 feet is tested. Deering Pure Sial Twine is made of extra long first strands of Pure Sial Fiber, which permits of very fine spinning, thus producing more bundles to the pound than any other twine in the world. To make a long story short, I offer the following. Take out a lot of Deering Pure Sial Binder Twine, try it, and if you don't find that it will bind an acre of wheat with less pounds than any other twine made, if you don't find that it is the strongest twine made, if it is not the best twine that you ever used, you will please return it and every cent of your money will be refunded. Surely, that's fair. You are to be your own judge. Say, I can save you big money on twine. I bought my twine some time since when it was selling below the cost of production. Twine has advanced ever since. I am willing to give my friends and customers the advantage of my judicious purchase. I am selling twine today, a pound less than the market price. In buying Binder Twine, Farm Wagons, Farm Implements, Mowers, Hay Rakes, Self Binders or Furniture it always pays to consult The Price Fighter.

An Open Confession is Good for the Soul

We oversold the situation. We are loaded with Baby Buggies. They must go—we don't intend to carry them over. When an article don't move fast enough we push it, and push it so hard that it runs away from itself. We never have any carried-over stock. Now listen: These Buggies will be sold regardless of cost. Cost cuts no figure in this case. We want a little bit of your money in exchange for these Baby Buggies, and in order to make the exchange quickly we will

Deering Machines have roller and ball bearings both, and in that respect is the only machine of the kind made. It is the lightest of any now on the market. Remember, Deering made the first binder. Deering first used ball and roller bearings. Surely you won't try a cheap imitation. Take a business view of the matter. Don't buy an expensive machine that you can take advantage of Deering's 25 years experience. They made the first Twine Binder, have a lifetime in improving it and today offer you the result of their labors at the same price that other companies wish to charge you for experiments. Don't buy a cheap experiment, but buy a perfected Deering Binder, Mower or Hay Rake. SAN FRANCISCO, June 29.—Gen. Wesley Merritt, who sails from this port at 10 o'clock Wednesday and assumes his duties as governor general of the Philippine Islands, has prepared a proclamation which will be issued immediately after his arrival at Manila. He expects to enter that city without serious resistance, but in case of necessity is prepared to use both the naval and military forces at his command to take forcible possession of the place.

The Terror made a dash which was swayed by the St. Paul. The St. Paul hit the Terror three times, killing one officer and two men and wounding several others. The Terrorer dropped back under cover of the fortifications with difficulty, and was towed into the harbor in a sinking condition, where she is now being repaired. Later a cruiser and a gunboat started out, but remained under protection of the forts.

In defeating the Terror Capt. Sigbee has rendered a most important service to our navy, and indeed to all navies. We have not only deprived Sampson's fleet of apprehension of an attack in the rear some dark night by this vicious little boat, but he has demonstrated that an auxiliary cruiser
